SIXTH INDUSTRIAL EXHIBITION

The Mechanics' Institute, SAN FRANCISCO, CALIFORNIA.

SAN, FRANCISCO, CALIFORNIA.

THE BOARD OF DIRECTORS: OF

the Mechanics' Institute hereby give notice that
the Sixth Industrial Exhibition of that Association will
be held some time in August next, in a building to be
erected for the purpose in Union Square in tax city.
Every preparation will be made to accommodate exhibitors and visitors with a view to make the Exhibition
profuzble, instructive and pleasant to all parties.

During the three years which thave intervened since
the holding of the last Exhibition in this city the manufacturing, nechanical, scientific and useful and ornamental arts have made unprecedented progress on this
coast, and it is believed that the proposed Exhibition will
exceed any other in value that has ever been held on the
shores of the Pacific.

The pian of building to be erected, which has been
adopted by the Board of Directors, it is believed will
prove to be the best adapted, both for display and convenience of the public, of any building ever erected in
the State. The building will be perfectly water tight,
their covered with a shingle roof, so that no damage from
the elements can be anticipated.

All parties who are interested in any of the branches
of Manufactures, Mechanics, or the Arts and Sciences are
invited to exhibit in the proposed Exhibition, and ic
share in the publicity and consequent profit which always
attends such enterprises. Suitable premiums will be
offered, and the specific date of opening the Exhibition
will be published at vome future time.

Ayer's ATHARTIO PILLS.

pywaya cutes, and from other well-known bubble persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

Dn. Ayer: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

As A Family Physic.

From Dr. E. W. Carteright, New Orleans.
Your Pills are the prince of purges. Their excellent qualities surpass any cathartix we no sees. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Hendache, Sick Hendache, Foul Stomach.
From Dr. Edward Boyd, Baltimore.
Dear Bio. Aver: I cannot answer you what
complaints I have cured with your Pills better than
to say all that we ever treat with a purpative medicine. I place great dependence on that effectual
enthartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we
have, I of course value them highly.

PITTEBURG, Pa., May I, 1855.
Dr. J. C. Aver. Sir: I have been repeatedly
cured of the worst headache anybody can have by a
dose or two of your Pills. It seems to arise from a
foul stomach, which they cleanse at once.

Bilious Disorders — Liver Complaints.
From Dr. Theodore Bell, of New York City.
Not only are your Fills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I am mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the 'rofession and the people.

Department of the The Interior, Washington, D. C., 7th Feb., 1856.

Sirk: I have used your Fills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organizates so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D. Physician of the Marine Hospital.

Dysentery, Diarrhene, Relax, Worms.

Physician of the Marine Hospital.

Dysentery, Dinrrhen, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Fills have had a long trial in my practice, and I hold them in esteem as one of the best uperients I have ever found. Their alterative effect upon the liver makes them an exceller, remedy, when given in small doses for billious dysentery and diarrheat. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

Dyspepsin, Impurity of the Miooc.

From Rev. J. V. Himes, Pastor of Advent Church,
Boston.

Dr. Aver: I have used your Pills with extraordinary success in my family and among those I am
called to visit in distress. To regulate the organs of
digestion and purify the blood, they are the very
best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

Secondary 1856.

PULASKI HOUSE, SAVANIAH, GA., Jan. 6, 1856.
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on exercicating neuralgie pains, which ended in chronic rheumatism. Nowthestanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SEMARE CHANNER, BAGOR ROUGE, La., 5 Dec., 1855.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855. DR AYER: I have been entirely cured, by your Pills, of Rheupatic Gout—a painful disease that has afflicted me for years. VINCENT SLIDELL. Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is daugerous in a public pill, from the dreadful consequences that frequently follow its incautious use. The Duke of Buckingham and the

It appears to us from a careful perusal of the late despatches from His Grace of Buckingham to the Domin. ion Government, upon the subject of the cession of the intermediate territory to the latter, they have altogether been regarded in a false light, when considered hostile or apathetic. So far as we understand their purport His Grace simply maintains, that as the Hudson Bay Company had really attained rights that could not be ignored, Parliament must be consulted in order to determine the legality of the transfer and the compensation to follow that act. If such rights do exist, and few reasonable men, we think, can deny the fact, it is far better to secure a fair start, to clear the way of all legal obstacles, to have all preliminaries settled, and then when we commence to travel, we can do so without further interruption. The amount of compensation has been determined, and a bill providing for all contingencies submitted to Parliament; and it is moreover stated, on good authority, that not the least opposition to the final settlement of the question is anticipated in Parliament from any quarters. We cannot see, therefore, why some of the Dominion papers, such for instance as the Toronto Globe, should speak disparagingly of the dispatches referred to, unless from its antagonism to the Dominion Ministry; it wished to attack them through the dispatches and force an explanation which could not properly be made at the time. In our opinion the press should be moderate at present lest they retard hereafter the present favorable progress of the Confederate scheme. Erery day sees some new element brought forward to sustain our cause and promote our interests. Our precise duty at present is clearly marked ont; we must be urgent, determined, reasonable, but neither bold, querulous, hasty nor too impatient. The matter of the Overland Route is being nobly maintained in London by Messrs. Dallas, Drs. Rae and Cheadle, Capt. Richards, Whymper, Waddington, and others of greater wealth, rank and influence. Mr Dallas is urging the question from a point which can alone arouse the English people and those resident in our other colonies, to see that they are equally interested in the completion of the road from Canada to Victoria with ourselves. This gentleman puts the point so forcibiy, and in our opinion so truly, that we are induced to give below an extract from one of the leading London papers received yesterday. "With reference to the Australian project to abandon the Panama rouse for that by San Francisco as soon as the Atlantic and Pacific Railway shall have been completed, on the ground that the distance from Wellington (New Zealand) to San Francisco is 700 miles (New Zealand) to San Francisco is 700 miles shorter than to Panama, with the great advantage of having Tahiti in the direct course, and available for forming a commodious coaling station, Mr A. G. Dallas, of the Reform Club, thinks it worthy of consideration whether Victoria (Vancouver Island) might not be substituted for San Francisco, so that her arillment from Considerations.

so that, by a railway from Canada through own territory, not only with Japan, China and the Eastern Archipelago, but with New Zealand and our Australian colonies; securing the unlimited supply of coal obtainable ing the unlimited supply of coal obtainable in Vancouver Island, together with its capacious harbors and boundless forests, adapted for ship-building, which give it a preponderating advantage over both San Francisco and Panama; whilst a liberal grant of land, now lying useless, would, as Mr Dallas believes, induce capitalists to come forward, and complete a scheme which would not only unite. England with her discovered to the control of would not only unite England with her dis-tant possessions, but open up a large con-tinent for settlement, and develope its mineral tinent for settlement, and develope its mineral and agricultural wealth, its coal fields, fisheries and forests." This point cannot be too strongly or too continuously urged. Such is the preponderance of the popular power and will now a days, that it matters not much whether a great minister, be he who he may, is cold, apathetic, slow or hostile to a measure, demanded by the people for their good. If they say a certain thing must be done, he has to stand out of the way, that if may be done. All wanted now is to work the people up to make the demand impersiously. iously.

THE Supreme Court of the State of New York have issued a perpetual injunction against Eaton and Jenkins for counterfeiting Ayer's Cathartic Pills holding them responsible for the cruel imposition in what they have done and restraining them from further like injury to the public. If any class of onr people more than another needs the interposition of law to shield them from imposture, it is the sick and suffering who are unable to protect themselves. A remedy so universally employed as Ayer's Pills by all classes, both to cure and prevent disease should as it does, have every security the law can afford it, from counterfeit and imitation.

remedies to be had any where.

The Steamer New World.

EDITOR COLONIST,-I desire to learn under what Act of the Imperial Parliament, or by what Ordinance of the Colony of British Columbia, a foreign registered vessel is allowed to proceed on a wrecking voyage in British waters, in other words to go coasting. The steamer New World has just cleared for Port Townsend, but with the undisguised intention of proceeding, under a contract of \$500 a day, to the wreck of the U S S Suwanee, there to be employed in saving the stores, materials, etc, etc, of that unfortunate vessel. I hear on good authority that, previous to the departure of the New World, a letter was addressed to the Collector of Customs by Capt Frain, of the steamer Grape pler protesting against the granting of any permission to a foreign vessel to engage in such wrecking service, and asking besides that the captain of the New World be notified of the unlawfulness of such an undertaking. I therefore conclude, in the absence of proof to the contrary, that the Collector did, as in duty bound, warn and point out to the parties concerned the consequences of so flagrant a violation of the law. Be this as it may, it remains to be noticed what course the Government will now pursue, seeing that the New World has actually set out on her expedition. Of one thirg I feel assured, viz, that the owners of British steam vessels in these waters, must, for their present and future protection, investigate still lurther this matter until they learn on whose shoulders rest the responsibility of having tacitly, if not openly, acceded to a foreign vessel the right of coasting in British waters.

"Queen Charlotte Island Coal."

EDITOR COLONIST,-In your paper of the 18th inst, I noticed an article headed ' Queen Charlotto Island Coal,' in which my name is mentioned as having examined a sample of the coal, and having expressed my satisfaction as to its quality; that I desired to enter into a contract with the company for a large and constant supply for the Austrian - Norge - Little and these

I read the above-mentioned article, that anthracite coal could be procured on this coast. I have never seen a sample of the coal mentioned and deny most explicitly having conversed with any person on the subject. By inserting the above, you will confer a great favor on Your obedient servant,

ALEX. V. FRASER, JR., 1st Asst. Engr. U. S. N: U. S. Flag Ship Pensacola, off Esquimalt, V. I., July 19, 1868. The above information was given to us

by parties of the highest respectability, whom we are assured did not intentionally err .-THE population of Russia has doubled

in sixty-two years, and at this rate will amount to one hundred and forty millions by the year 1900. The average length of life is thirty two years, of men, and thirty-one, of women. Russia has more young persons under the age of twenty, n proportion to her population, than any country in Europe, and less between the the ages of twenty and sixty.

THE SUWANEE WRECK .- The Grappler a colonia! boat, has been refused, the contract for relieving the wreck of the Suwanee of her guns, stores, etc., which has been given to the New World, after the contract was all but completed with Capt. Frain. The question arising from this transaction is not one of preference but of right. A foreign boat cannot legally be used for wrecking in our waters, and then comes the additional question of paying our Government a license for the privilege of doing so, which adds injustice to wrong. We hardly think the question can rest where it is. Captain Frain offered to accept the contract for \$150 a day: the New World receives \$500, so says rumor. Who is to blame for this injustice and wrong? We think "Civis" is quite right in asking the question.

THE INTERIOR .- From Mr Adams, of Soda Creek, we learn the country above looks with and the weeps wageing only first indeed. than ever known in the interior; they are also at least three weeks earlier than usual. With the exception of the outbuildings, Mr Adams has finished his new mill at Soda Creek, and will be able now to make 150 to 180 barrels of flour every 12 hours. Mr Spence had very much improved the worst parts of the road, and the teamsters expressed themselves satisfied. Much rain had fallen; in the interior, but had not done any damage.

[Loud cries—Yes, yes.] Well, then, I call upon you with one accord to unite, bury all sectional feelings and show by your actions that the people of this colony—English, Irish, Scotch, Welsh, Oanadian, and also our friends of other nationalities—are all in favor of this great object,

Confederation Meeting, Cariboo.

On Dominion day the people of Cariboo held an open air meeting in front of Scott & Lipsett's saloon, Barkerville. Mr J M Sparrow was called to the Chair, and Mr J McLaren was appointed Secretary.

After the chairman had introduced the object of the meeting, Dr Carrall moved the following resolution:

Whereas, the Imperial Parliament of Great Britain, by an Act calitled the British North American Act, has made liberal provisions for the admission of this colony into the Dominion of Canada; and whereas, the Government of Canada in March last, did make formal application for the admission of this colony; and whereas, March last, did make formal application for the admission of this colony; and whereas, the people of this colony have at sundry times and places, by means of public meet-ings, demanded of the Government of this colony to aid and assist in procuring the admission of this Colony into the Confederation, and all to no purpose, therefore be it

resolved:

1 That in the opinion of this meeting the conduct of the Government of British Columbia, in opposing Confederation, is contrary both to the policy of the Imperial Government and the declared wishes of the people of this colony.

Mr Babbitt seconded. Both the mover the contrary when

and seconder made effective speeches, when the above resolution censuring Gov. Seymour and his Executive and Legislative Council for obstructing Confederation was adopted without a dessentient voice.

The second resolution declaring the inten-tion of the people of Cariboo to organize in favor of immediate Confederation was moved

favor of immediate Confederation was moved by Mr J S Thompson; and it is so pertinent of the present state of our political affairs that we re-publish it in lits entirety as it appears in the Cariboo Sentinet:
"Mr Thompson, in coming forward to shpport Confederation said he had one principle reason, and that was that he was not a Canadian. Canadians, it was true, could best appreciate the benefits, but all must feel that Confederation is necessary. The various speakers who had preceded him had thiry Explained that advantages to be derived. fully explained the advantages to be derived from Confederation, so that he would at once proceed to read the resolution:

2. That as the Government of this colony

continues to resist the wishes of the inhabit-

continues to resist the wishes of the inhabitants on this important question, the people should at once adopt some organized and systematic mode of obtaining immediate admision into the Dominion of Canada.

The speaker continued;—That Confederation was desirable there could be little doubt, equally, so that it was the wish of the people of the colony, and that the Government threw obstacles in the way of its consummation. The more we investigated the subject the more apparent does it become. This colony is now politically a mere speck; This colony is now politically a mere speck; nominally a portion of the British Colonial Empire, but in reality deriving no advantages from the connexion, unless it be the satisfaction of knowing that it affords good pasturage for a number of atray sheep from the Colonial Office flocks. Its domain is large but sparsely settled, while it is saddled with a Civil List and expenditure sufficient for a colony of fifty times the population; and what is more repurent to our feelings, we what is more repugnant to our feelings, we have no voice in the matter,—we are expected to pay exorbitant taxes without a neurmur. He would ask if this was a proper state of affairs? and had we not better try to get rid of the members of the pre-sent irresponsible autocracy as soon as pos-sible, and render ourselves practically inde-pendent by becoming one of the provinces of the Dominion of Canada? The Dominion the Dominion of Canada? The Dominion is now one of the recognized powers of the earth, which, while retaining its own individuality, still proudly boasts of being a cluster of bright stars in that brilliant galaxy of sparkling luminaries which constitute the constellation the British Empire. Then let us seek its fostering protection rather than attempt any longer to shine on our own account as a star of the one hundredth magnitude. For ten years, since the first eager crowd of gold seekers rushed to the banks of the Fraser, has this colony struggled to keep its head above water, and what is its present condition? condition?

Almost in a state of bankruptcy. While the bonds of the Dominion are eagerly sought for, those of British Columbia are unsaleable. If we were once admitted into the Confedera-tion, our debt would be merged with that of the Dominion, and we should be enabled to breathe freely once again. It may be asked by some sceptical individuals, will the other provinces be willing to admit us and confer upon us so many advantages unless we can offer some inducement in return To this he offer some inducement in return To this he (Mr T) would answer, the advantages would be reciprocal, while they would raise us from our present abject condition of bankruptcy and seridom, we would open to them the gates of the Orient. When the Northwest territory, now held as a bunting ground by the Hudson Bay Company, becomes united to the Dominion, as it shortly must, then this now despised colony of British Columbia will become of importance; it will be the last link in the chain of independent provinces unting the Atlanton to the Paging. provinces uniting the Atlantic to the Pacific,

British banner. The people of Cariboo are the mainstay of the whole colony. They contribute directly and indirectly the greater portion of the taxes. Yet how are they treated? Left entirely to their own resources! For instance, the Council recently voted \$5000 for a trail from William Creek to Mosquito Gulch, and we cannot go there to down early this morning.

Although the mines of Cariboo have now been in existence seven years we cannot now go a dezen miles from Barkerville, without fighing our way step by step through the primeval forests and swamps, over rugged mountains and foaming torrents; and had it not been for the indomitable energy of the miner this region would still have remained the home of the Cariboo, the beaver and the marten. There can be no question as to the almost unanimous feeling throughout the colony in favor of Confederation. Public meetings have been held everywhere, from the mountains to the sea, from Victoria to Cariboo. The entire press of the colony whatever their opinion on other subjects may be, holds but one on this. Even the Government has deplared in its favor; but though the Legislative Council of 1867 passed a resolution in favor of Confederation, the official members in the session of 1868 annulled that resolution on the ground that delay was necessary! Delay! delay for what? To enable them to retain their offices a little longer, and stave off for a year at least the inevitable event which must seal their doom, Will you then quietly submit to be treated with such indignity? Will you by keeping

Show the Government of Great Britain that Show the Government of Great Britain that you are in carnest and you must obtain what you desire. Domonstrate that you will no longer submit to be treated as ser's in this age of progress; that you will not calmly surrender your inalienable birthright of liberty as British subjects. (Loud applause) See the magic influence that that name carries with it to-day. An African savage monarch imprisons a few British subjects, and though protected by almost inaccessible nountains in his stronghold—although the armies of Greece and Rome in their palmiest days had been foiled in attempting to overum the same been foiled in attempting to overrun the same territory, a brief campaign has laid the tyrant Theodore in the dust, and British arms have vindicated British henor. What must be the feelings of these ransomed capmust be the feelings of those ransomed captives on first setting foot again on their native shore. Will they not fall on their knees, and cry with rapture, 'Thank God, I am a British subject? And shall we, then, while toasting that glorious appellation, submit any longer to the present system of oppression. (Cries, no, no!) Some parties say they care nothing about this matter; all they want is a good paying claim. We all want that; but many of us have tried to get one for the last five or six years in vain, and we may have to wait as many more. So, while may have to wait as many more. So, while we are waiting, let us unite aed endeavor to ameliorate our condition. Make this a national, not a sectional issue. Recollect our common origin, our common flag, and devote your energies to furthering the glorious cause of Confederation, and perhaps when many of us get ready to leave this colony was man valors a foreign to the proper persect the pulsars. we may enjoy a journey across the plains, drawn by the mighty iron forse, while the herds of buffaloes fly in terror before him across the prairies, and his shrill whistle

PARIS.

THESE different medicines represent the most recen nedical disoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names suffici ently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of neaical preparations, and only those which have under gone an examination by the Academy of Medicine and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of Mesers. Grimault et Co.'s Medi-
